EVION JIMERSON

COMPUTER SCIENCE STUDENT | MATHEMATICS MINOR

Fayetteville, Arkansas | evionjimerson@gmail.com | github.com/evionjimerson-crypt | linkedin.com/in/evionjimerson

Computer Science student building Java software and PostgreSQL-backed team projects, with current capstone work in clinical research and validation planning. Interested in software engineering, cybersecurity, and IT opportunities.

EDUCATION

University of Arkansas Expected May 2027

Bachelor of Science in Computer Science | Minor in Mathematics

TECHNICAL SKILLS

Programming: Java, Python, JavaScript | Data: PostgreSQL, relational databases | Tools and methods: Git, MVC, object-oriented design, validation planning

PROJECTS

Smartphone Eye Tracking for Concussion Research Capstone | In progress

- Work with a biomedical sponsor on a phone-based eye movement assessment concept; support clinical research and validation planning.
- Consider pilot data, consent and privacy, data handling, and methods to flag unusable sessions.

Full-Stack Laser Tag System Four-person team project

- Collaborated on a laser tag software project with a four-person team.
- Worked with the PostgreSQL-backed system, connecting application logic and persistent data.

2D Game and Map Editor Java course project

- Built a Java game and map editor using MVC and object-oriented design.
- Extended the game with collision behavior and polymorphic game objects across assignments.

SELECTED COMPLETED COURSEWORK

Operating Systems | Database Management Systems | Artificial Intelligence | Information Security | Software Engineering | Programming Paradigms | Discrete Mathematics | Engineering Probability and Statistics
